Scope

The Town of Renfrew is committed to protection against illness, injuries and accidental loss to its workers and property.

Procedure

In fulfilling this commitment, we will provide and maintain a safe and healthy work environment as indicated by acceptable industry practices and compliance with legislative requirements, and we will strive to eliminate any foreseeable hazards which may result in fires, security losses, damage to property, and personal injuries/illnesses.

Accidental loss can be controlled through good management in combination with active worker involvement. Loss prevention is the direct responsibility of all staff.

All staff will comply with The Town of Renfrew loss prevention requirements as they apply to the design, operation, and maintenance of facilities and equipment. All employees will perform their jobs in accordance with established procedures and operating philosophy.

I trust that all of you will join us in a personal commitment of leadership in loss prevention as a way of life.
